

O. P. C. "CULTURE"
PAY FOR TEACHERS

Should Get Another Increase on That Basis, Says Dr. Lefkowitz.

Dr. Abraham Lefkowitz, who announced that he represented the teachers' union, told the Joint Legis-

lative Committee on Education in City Hall today that there should be a ten per cent. addition in salaries of school teachers for "culture."

"To give teachers the cultural wage to which they are entitled," said Dr. Lefkowitz, "and making an allowance of half ten per cent. for culture, the wage on the basis of the purchasing power of the 1914 dollar, ought to be \$3605 a year for the K-6 teacher. A high school teacher's salary should be \$4441, according to the head of the

Teachers' Union. Dr. Lefkowitz also expressed this opinion: "We to-day have higher quality and quality in teaching, because there are 110,000 teaching vacancies despite the increased increase in salaries that have been made in various parts of the country."
